Research questions
RQ1
Do motifs add signal over the baseline?
RQ2
At which time window δ?
RQ3
Do categories differ in motifs and time scale?
Datasets
HuggingFace ETH Fraud
binary labels · RQ1, RQ2
Real-CATS
criminal categories · RQ3
BLTE
appendix replication
Synthetic fixtures
counter validation
Locked pipeline · run_results.py (detailed in the pipeline figure)
Prepare
eligibility, cohorts, folds
Locked artifacts
protocol.json + Parquet
Execute
graph, motifs, models, tests
Reported results · Chapter 5
RQ1 ablation
baseline / motifs / combined
RQ2 window curve
+ selected δ
RQ3 separability
+ per-category δ
Robustness
orderings, BLTE, synthetic
